Which kitchen do you want?

Marcin Floryan

Tech Tribe Lead

So you want to build a new kitchen?

So you want to build a new kitchen software delivery capability?

Beginning

"≪Begin at the beginning,» the King said, very gravely"

Lewis Carroll, Alice in Wonderland

Culture

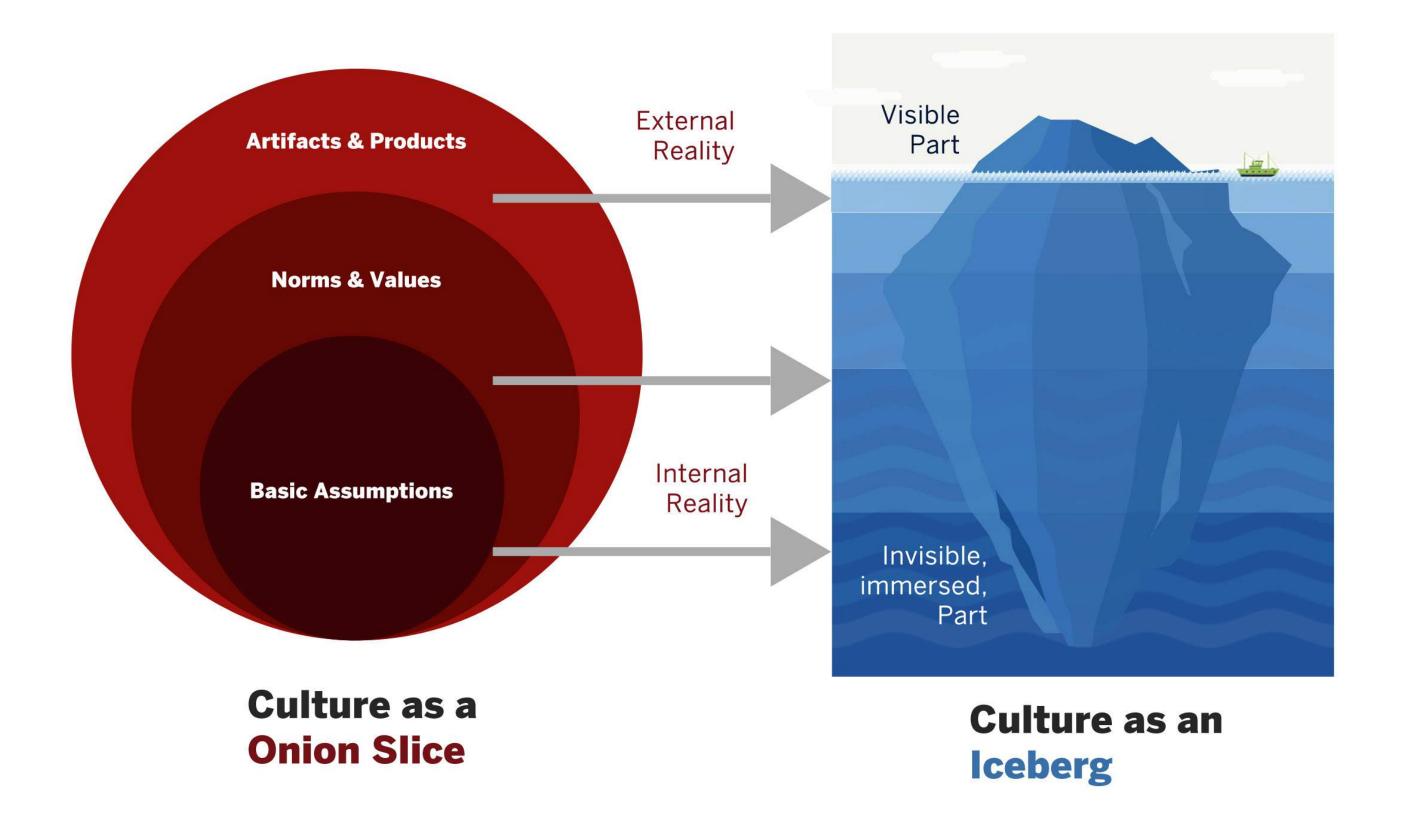

"Culture is an abstraction, yet the forces that are created in social and organisational situations deriving from culture are powerful. If we don't understand the operation of these forces, we become victim to them"

Edgar H. Schein

Schein culture model

"The purpose of this volume is [...] to encourage the realization that theory is important, to urge management to examine its assumptions and make them explicit"

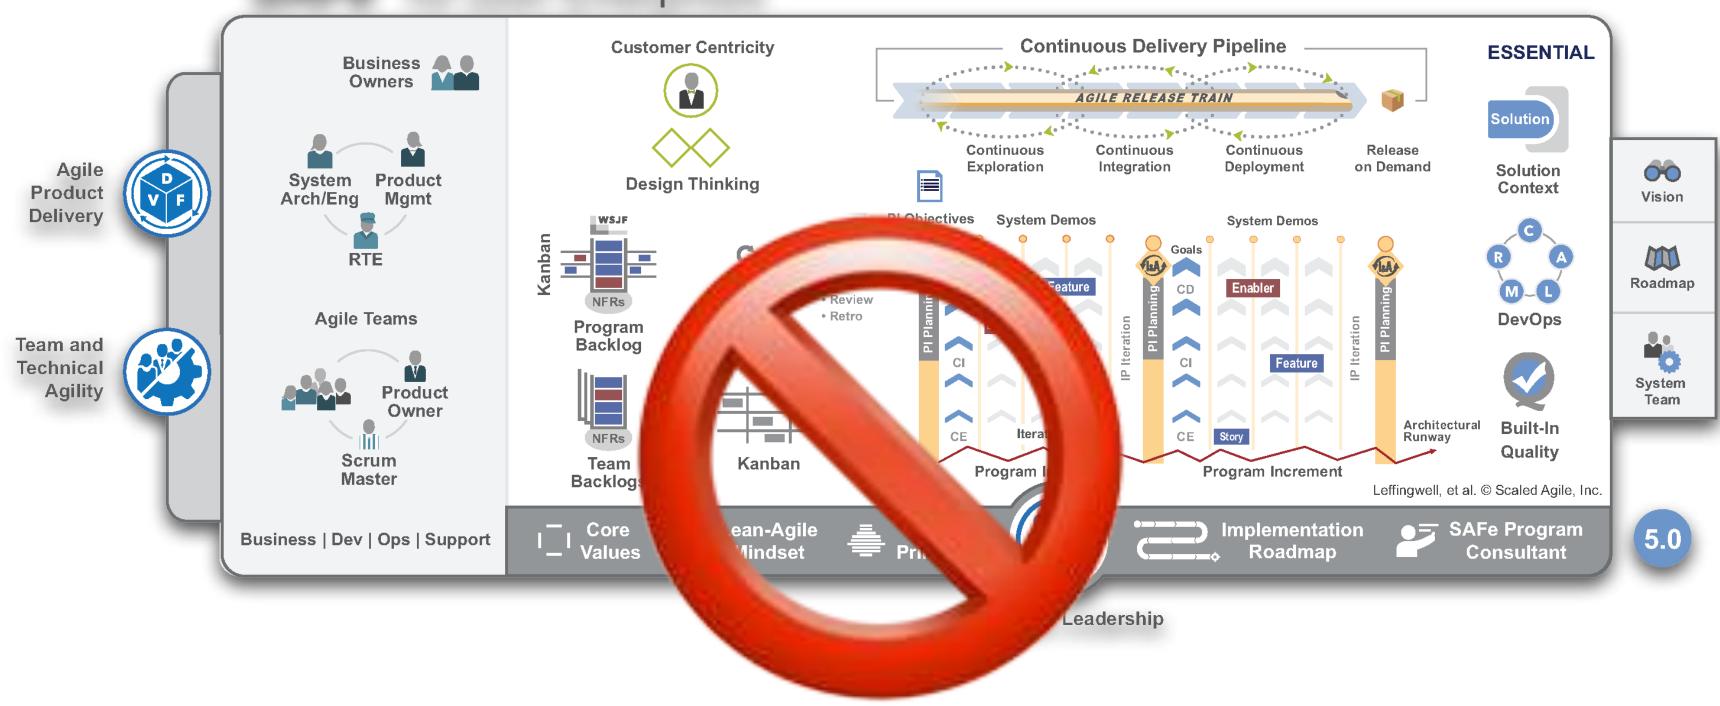

Douglas McGregor, The Human Side of Enterprise

How do we get there?

Scaling Agile @ Spotify with Tribes, Squads, Chapters & Guilds

Henrik Kniberg & Anders Ivarsson Oct 2012

Dealing with multiple tea duct development organiz

One of the most impressive "ve seen so far is Spotify" pt an agile mindset despite having scaled to over 30 team.

Spotify is a fascinating company that is a specific product itself can be given and already has over 15 million active us a smallion paying. The product itself can be likened to "a magical music player in which you can instantly find and play every song in the world".

Alistair Cockburn (one of the founding fathers of agile software development) visited Spotify and said "Nice - I've been looking for someone to implement this matrix format since 1992:) so it is really welcome to see."

So how is this managed?

We have both presented at conferences and been caught in engaging discussions around how we work at Spotify and how the company handles agile with hundreds of developers. Many people are fascinated by this, so we decided to write an article about it.

Disclaimer: We didn't invent this model. Spotify is (like any good agile company) evolving fast. This article is only a snapshot of our current way of working - a journey in progress, not a journey completed. By the time you read this, things have already changed.

"Stop trying to borrow wisdom and think for yourself. Face your difficulties and think and think and think and think and solve your problems yourself."

-Taiichi Ohno

How do you build your products?

How do you build your software?

MANIFESTO FOR AGILE SOFTWARE DEVELOPMENT

WE ARE UNCOVERING BETTER WAYS OF DEVELOPING SOFTWARE BY DOING IT AND HELPING OTHERS DO IT. THROUGH THIS WORK WE HAVE COME TO VALUE:

INDIVIDUALS AND INTERACTIONS OVER PROCESSES AND TOOLS
WORKING SOFTWARE OVER COMPREHENSIVE DOCUMENTATION
CUSTOMER COLLABORATION OVER CONTRACT NEGOTIATION
RESPONDING TO CHANGE OVER FOLLOWING A PLAN

THAT IS, WHILE THERE IS VALUE IN THE ITEMS ON THE RIGHT, WE VALUE THE ITEMS ON THE LEFT MORE.

An example

(Some) Guiding Principles

- Transparency
- Collaboration
- Feedback loops
- Aligned Autonomy
- Psychological Safety

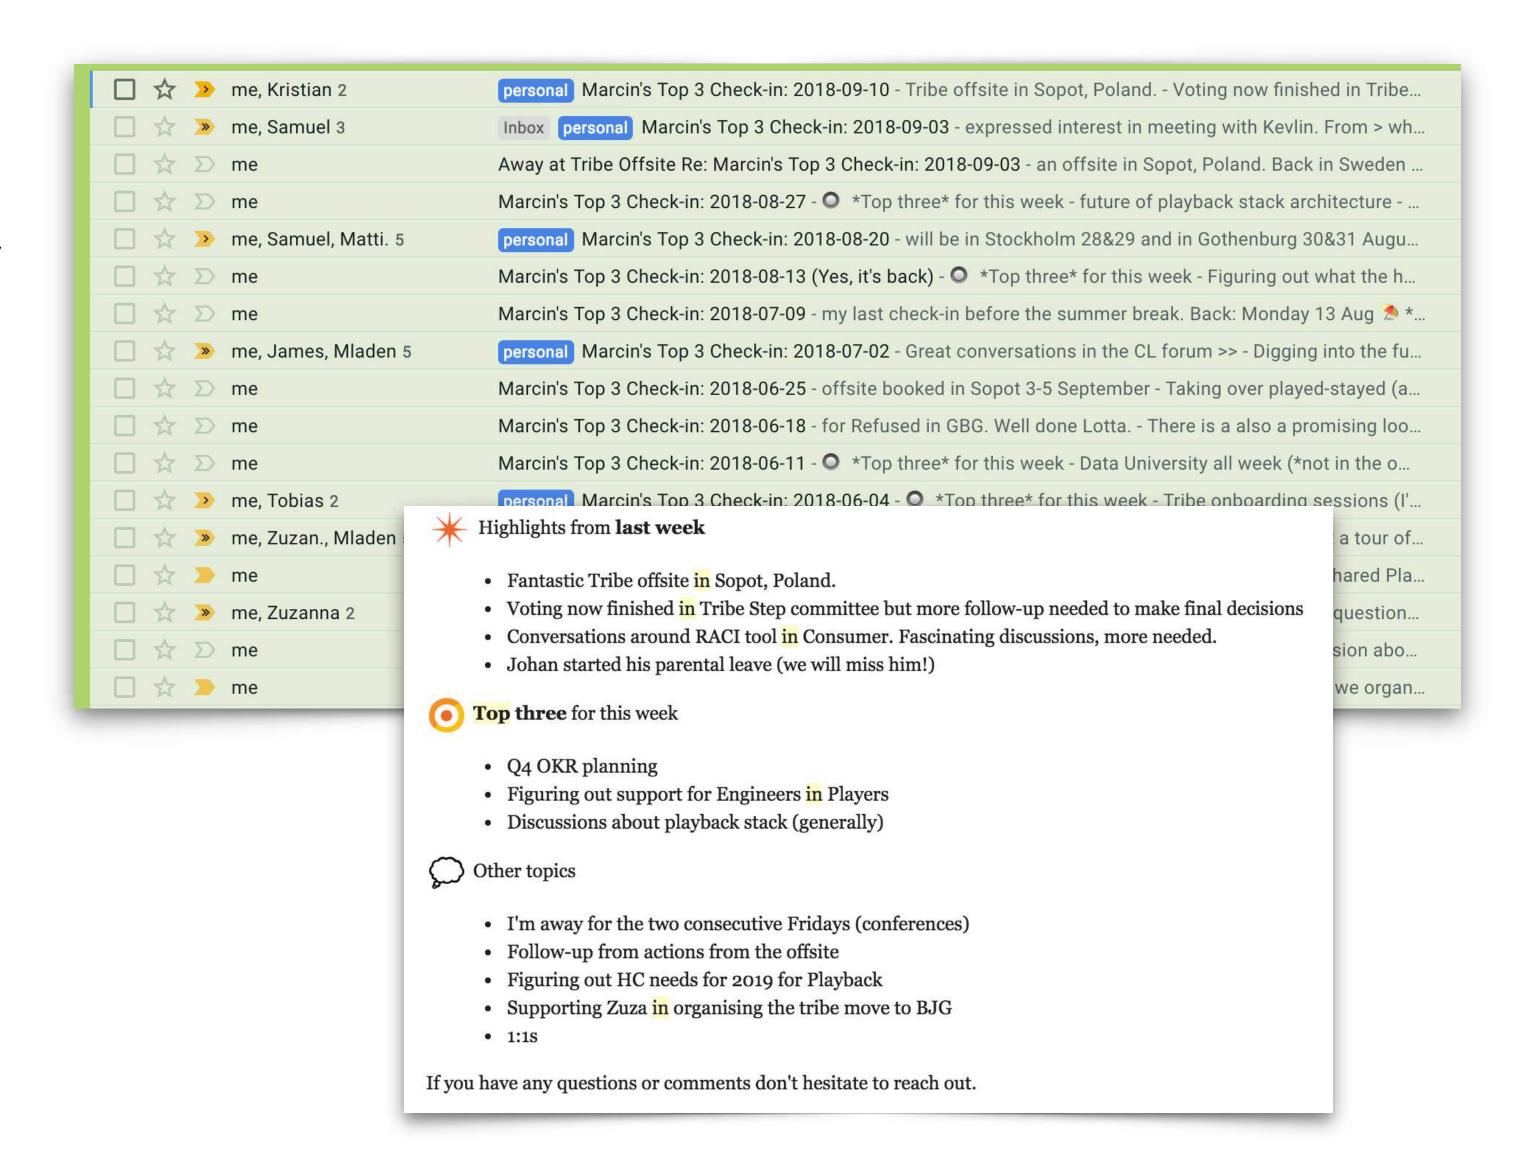

Transparency

- Creates transparency in two directions
- Helps with focus
- Spreads by example
- Sparks conversations

Collaboration

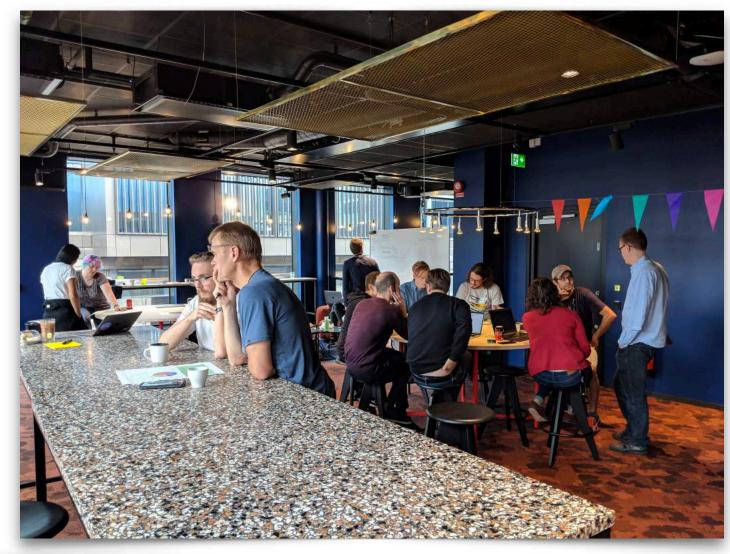

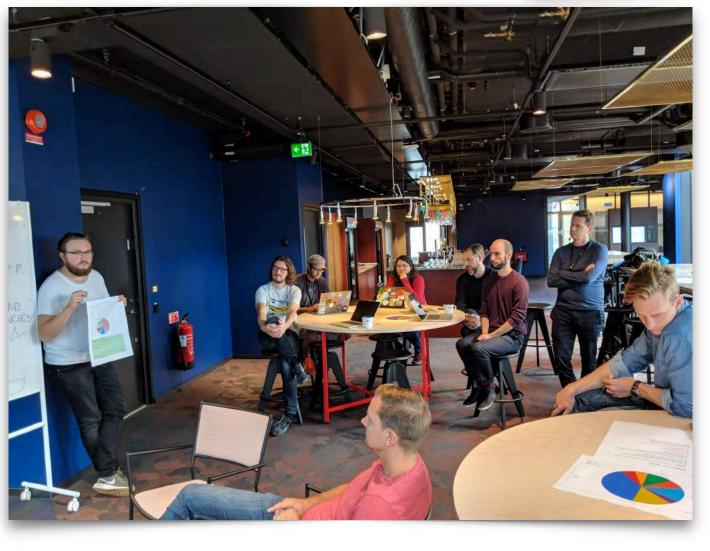

- Started as OKR sync
- Became Delivery
 Standup
- Now a Tribe Standup
- Representatives from every squad meet once a week

Focus
Commitment
Belonging
Learning

Big room planning

- Run every quarter
- Seeded with goals (from all levels)
- Every team presents their ideas
- Leads present priorities
- Together we agree on the work and create
 OKRs

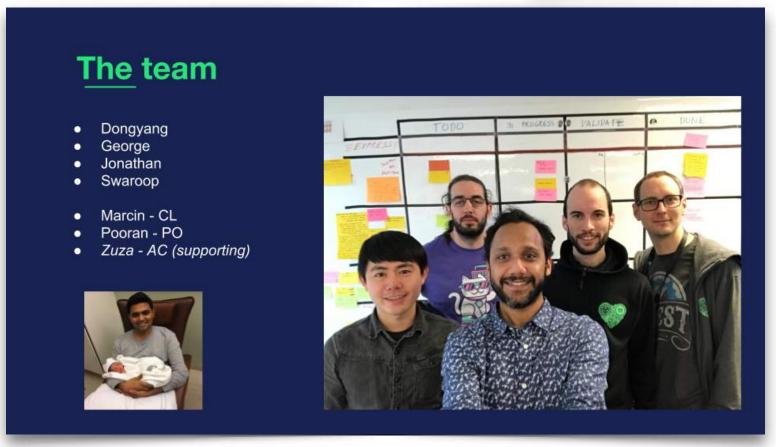

Feedbackloops

Taps with squads

- Leads meet with every squad
- Usually 1-2 per Quarter
- Four topics:
 - Impact
 - Delivery
 - Health
 - Help

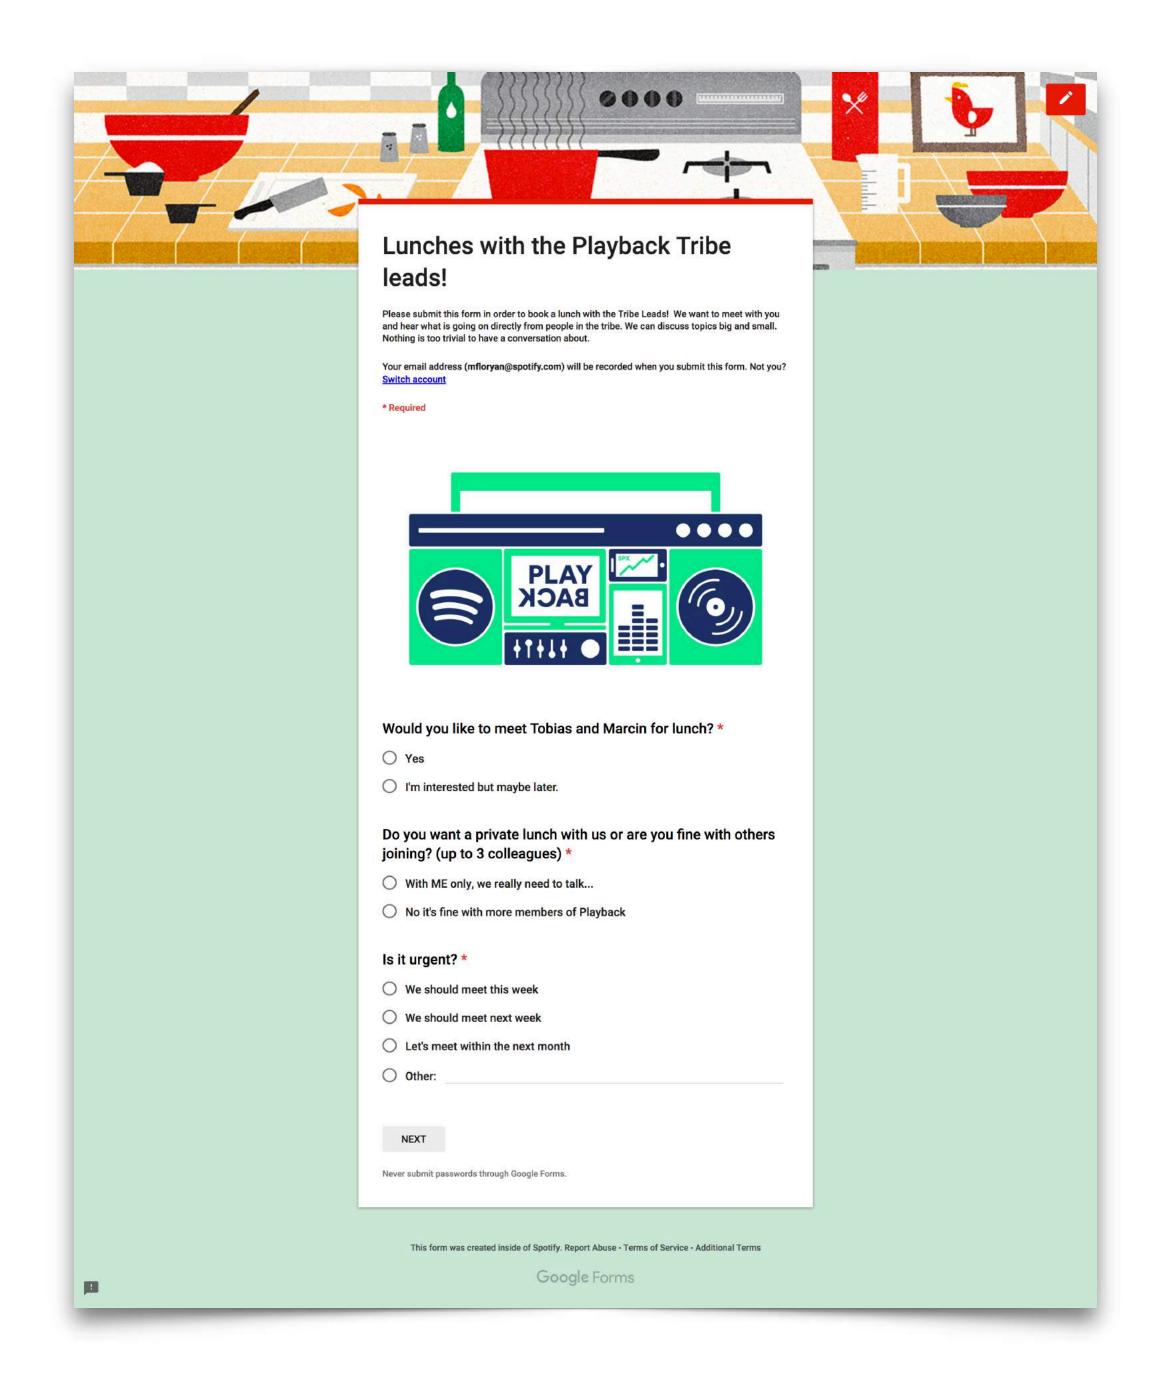

Lunch with the leads

- Informal opportunity for a conversation
- Easy sign-up
- Close connection

Aligned Autonomy

Setting clear expectations

- People need expectations
- Defining clear boundaries enables autonomy
- Autonomy comes with responsibility

YAJ9

ENGINEERING

expectation of responsibility.

@jchyip

Autonomy isn't a benefit; it's an

Psychological Safety

Psychological Safety in Playback

- I understand that people are different and I encourage everyone to be themselves
- I am curious and open to others' opinions without judging
- I encourage others to ask questions

 I am mindful that my words and actions affect others so I adjust my behavior

- We all make mistakes and I provide a context where others feel safe admitting theirs
- Emotions do belong at work

Show respect
Assume good intent

Care for one another

Listen without judgement

Be kind

What next?

"I argue that a learning organisation is created by focusing renewed employee attention on the work, not by trying to change the culture."

-Amy Edmondson

Alice asked the Cheshire Cat, who was sitting in a tree, "What road do I take?"

The cat asked, "Where do you want to go?"

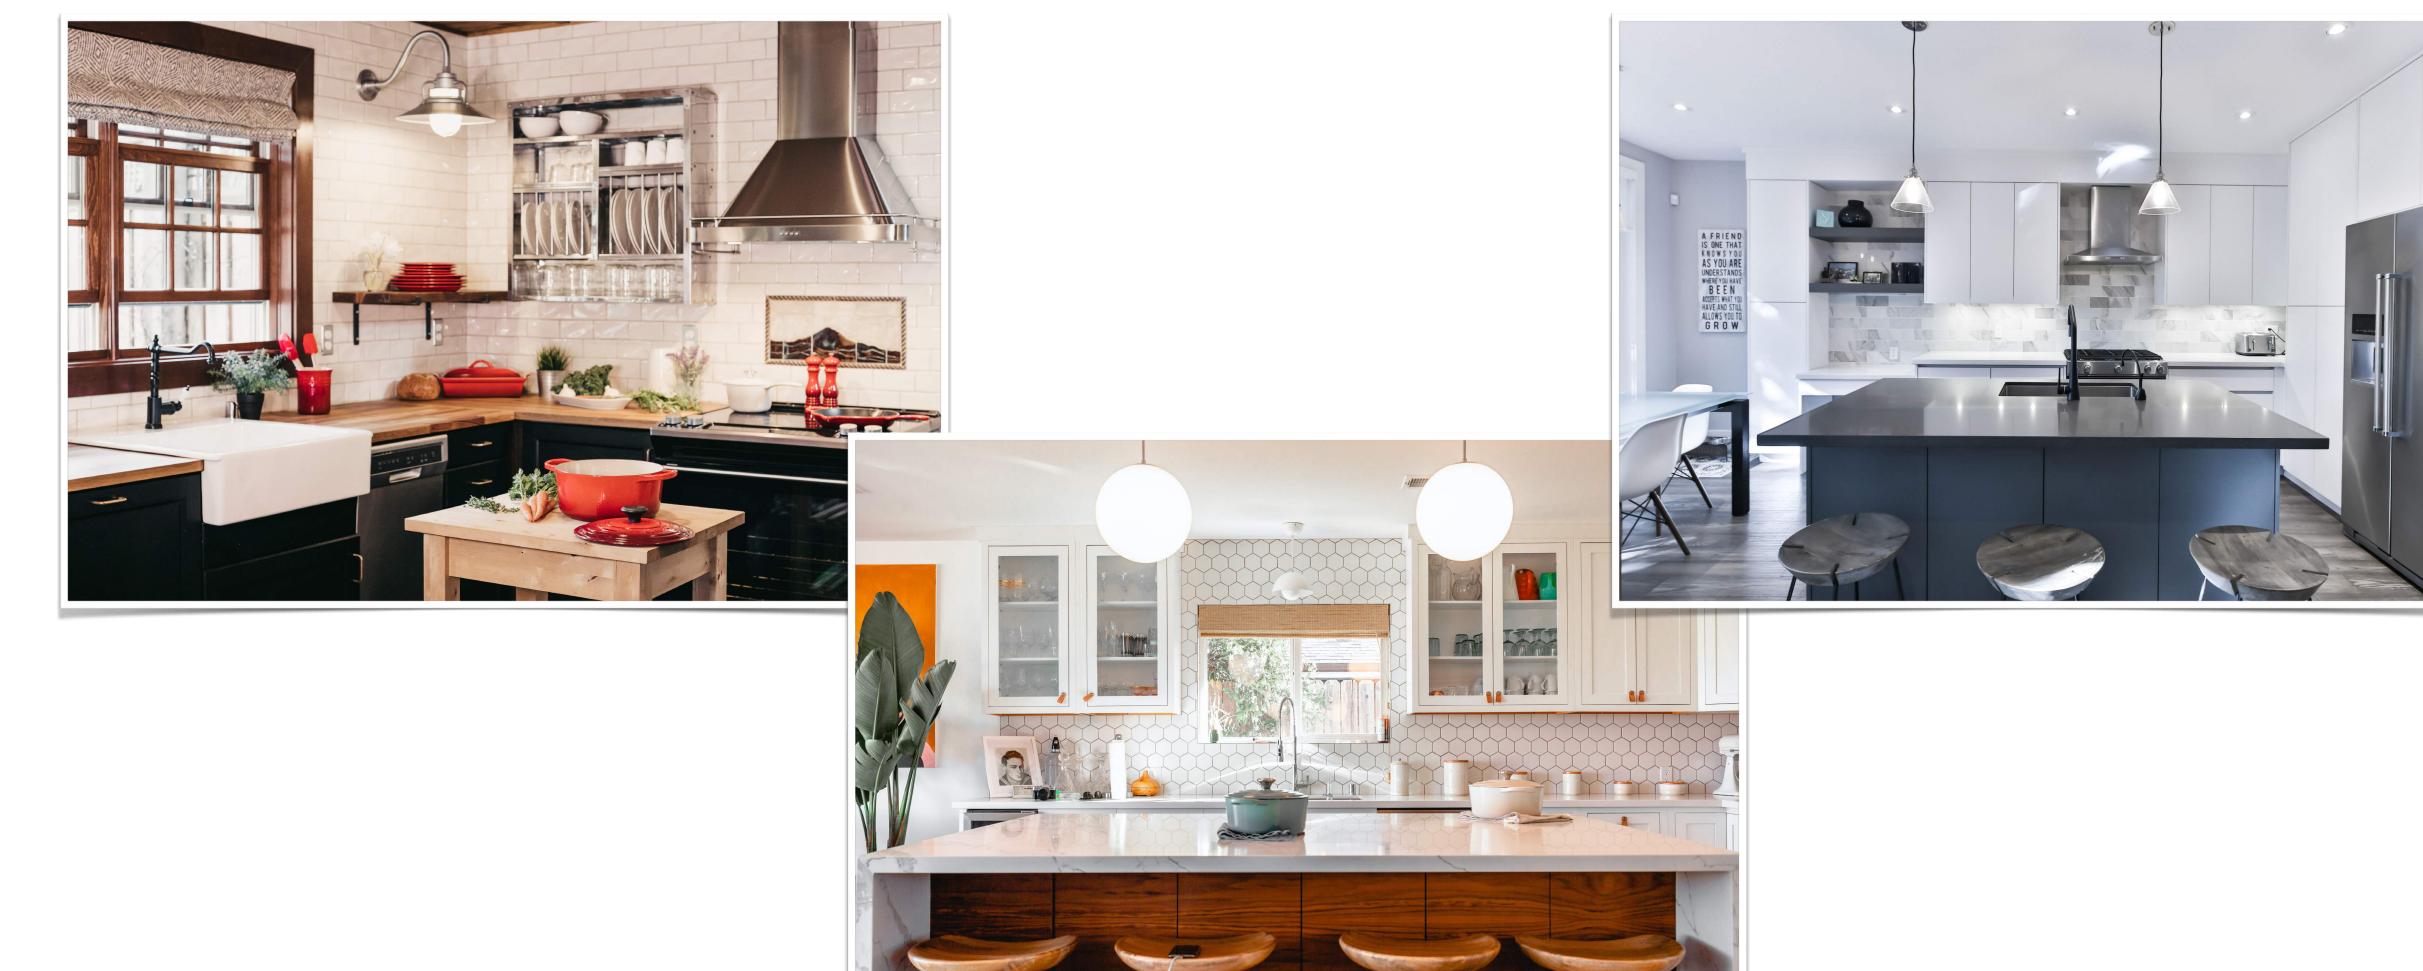

"I don't know," Alice answered.

"Then," said the cat, "it really doesn't matter, does it?"

Lewis Carroll, Alice in Wonderland

What would you like to do in your kitchen?

Thank you!
